Our Constitution and Our Individual Rights are Under Attack. The People Must Send a Message:

Enough is Enough.

Who: Legions of ordinary Americans know that our "system" is broken. The government is out of control and our way of life, our Republic and our very freedom are directly threatened by the incessant erosion of Individual Rights and the refusal of every branch of the U.S. Government to honor, and abide by, the written Constitution of this nation.

It is time for We The People to be heard, to reclaim our rights and to restore this nation to the Rule of Law under our Constitution.

Bob Schulz, Chairman of the We The People Congress is organizing Freedom Drive 2002.

What: People defending freedom will drive across this nation, converge in Washington DC on November 14th, hold a rally on the Mall and deliver formal Petitions for Redress of Grievances to the Government as provided for by the 1st Amendment to the U.S. Constitution.

Where: People will drive from all corners of this nation converging on Interstate 70 and drive East, stopping each night for a rally and to reassemble the caravan for departure the following morning.

When: Freedom Drive begins Veteran's day weekend, November 8th. The main easterly route is Interstate-70 starting in Denver and proceeding through Kansas, Illinois, Indiana, Ohio, Pennsylvania and Maryland before converging with others from north and south and **ends in the nation's Capital, on Thursday, November 14th.** The Mall rally begins at noon.

"Kick-off" rallies will be held on Friday, November 8th in Seattle, Portland, San Francisco and Los Angeles. The FD route "rally cities" are:

Last summer, after almost 3 years of respectfully petitioning the government, Bob Schulz went on a 3-week hunger strike, risking death, to get the IRS and DOJ to answer basic questions about the legal authority for the federal income tax and the jurisdiction of the IRS.

In January, 2002, after formally agreeing to publicly provide official answers, both IRS and DOJ reneged on their formal agreement.

To this day, the legal charges remain unanswered by the U.S. Government.

- The **RIGHT** to due process of law.

We Must Defend The Constitution

The US Treasury has been auctioned to the highest bidding corporations, financiers and campaign contributors. Institutionalized greed for federal money and influence has cost us our rights, our civil liberties -- and may soon cost us our Republic.

US foreign policy, defense strategy and monetary interventions have birthed tragedy, fear and conflict worldwide. These were THE direct causes of 9/11.

Hunger, homelessness and social decay inexplicably defy solution -- even after decades of social "engineering" and rivers of money that flow endlessly through the Capital.

The government now "protects" us by monitoring our organizations, financial transactions, phone calls and e-mails -- all without warrants or court orders. Americans may soon need a national ID card just to get a job or drive down the street.

Deprived of firearms, the People are defenseless in their homes and businesses, unable to repel either criminals or an increasingly tyrannical government.

The nation is forever enslaved by a national "debt" that can never be repaid because it has been ordained that **debt is money**, conjured without limit, by a privately held corporation called the "Federal Reserve".

On Veterans' Day weekend, this November, Americans will depart from major cities on the West Coast and head east in their cars and trucks across our nation.

Countless others will join, streaming from states North and South.

The Freedom Drive will continue east, finally converging in Washington DC at Noon, Thursday, Nov. 14th for a rally on the Mall.

Grand Juries are never told by judges that they have the power to independently investigate the government. Trial juries are never told of their right to judge the facts and the law. The courts have become tools of pillage that protect political power, improper private interests and the "status quo."

Under direct threats, including incarceration, we are forced to endure an income tax system that violates virtually every protection of our Constitution.

Former IRS agents, attorneys and others recently testified, under oath, that IRS personnel have NO bona fide, delegated authority in law to assess federal income taxes or seize property or wages. There is hard documentation that IRS personnel routinely and willfully commit crimes to extort taxes.

Although the 1st Amendment guarantees us the right to petition our government, the DOJ and IRS **refuse to, and cannot, cite any US law that specifically requires the average American to pay income taxes or to file a return.** Untold innocent Americans are in prison and have been financially ruined for failure to pay a tax, that under US law, **none of us owe.**

**Drive to DC and
Reign Government
Back In.**

Robert Schulz **Chairman, We The People Congress**

**Committed to Freedom and the
Rule of Constitutional Law**

Bob Schulz earned an engineering degree from the United States Merchant Marine Academy (1963), and a Masters Degree in Business Administration from Xavier University (1969). He completed most of the course work required for a Ph.D. in Public Administration at the Graduate School of Public Affairs, State University of NY.

Bob has held significant positions in industry (General Electric), in government (Connecticut, New York State, and the U.S. Environmental Protection Agency), on Wall Street (Prudential-Bache), as the founder and CEO of a consulting firm, and on the radio as a talk-show host (with WROW in Albany, New York).

Bob received an honorable discharge from the U.S. Air Force in 1959 and he answered his country's call by volunteering as a ship's engineer during the sea- lift to Vietnam in 1966.

However, this work and these assignments are not Bob's principal reason for being.

Although not an attorney, Schulz is not unskilled in law. Since 1979, Bob has been occupied with an abiding concern about wrongful governmental behavior and has been carefully evaluating governmental behavior and comparing that behavior with the requirements of the law and the state and federal constitutions.

For over two decades, when he has found wrongdoing he unhesitatingly confronted these improprieties in the courts -- professionally, intelligently and rationally. Bob performed the legal research, prepared the briefs and personally argued cases in the highest state and federal courts. At least one hundred fourteen (114) decisions have been rendered in cases he has brought against unconstitutional and illegal governmental behavior, prevailing on many important issues.

Since 1999 Schulz, as Chairman of the We The People Foundation for Constitutional Education (a 501(c)3 not-for-profit foundation) has waged and managed a nationwide educational effort aimed at forcing the U.S. government to answer to well researched and documented charges that the U.S. government has NO legal jurisdiction to enforce the income tax upon average Americans in the fifty states and that the IRS and DOJ unlawfully enforce the tax laws and routinely deny the constitutionally protected rights of American citizens.

As Chairman of the We The People Congress, Schulz is growing the Congress into an effective, grassroots, membership based, non-aligned activist organization capable of long-term citizen vigilance. Schulz's current objective with the Congress is to force the government to honor the people's petitions for redress concerning a wide spectrum of gross violations of civil rights being committed by our courts, elected leaders and the federal bureaucracy.

Bob and his wife, Judy, of 39 years live on a small farm off the East shores of Lake George, NY, where they raised four children -- each of whom graduated from one of America's finest universities.

16. Let's visit some of the root legal and Constitutional issues of the income tax fraud that were covered in the Truth-in-Taxation Hearing:

Jurisdiction: Can the U.S. government enforce an income tax inside the 50 states?

Liability: 18,000 pages of tax regulations but the government cannot cite the specific law that requires average Americans to file or pay – correct?

5th Amendment: How can the government force you to waive your 5th Amendment (Miranda) rights? Is filing voluntary or not?

4th Amendment: How can the IRS seize citizens' property, bank accounts, homes, etc. administratively without a court order or a signed judicial warrant?

Due Process: Is it true that U.S. Tax Court is a part of the IRS and not a “real” court?

16th Amendment: Was this a fraud? Isn't this just about some misspelled words?

The Federal Reserve: How are “money”, income taxes and the “Fed” all related?

17. The Truth-in-Taxation hearing revealed many other disturbing things:
- Former IRS agents testifying about deceptive IRS agent training
 - A forensic accountant w/ evidence that IRS agents tamper w/ IRS computer files.
18. Bob Schulz has stopped filing and paying income taxes. What lead you to this decision? How can you justify not paying your “fair share”? How did you do it? Are you scared?
19. How can our listeners/readers get a copy of the Truth-in-Taxation Hearing or “Tax Termination” package?
20. Final Thoughts: WHY should average people get involved? What does the future hold for our nation if things continue unchecked? What is it going to take to achieve real change?
